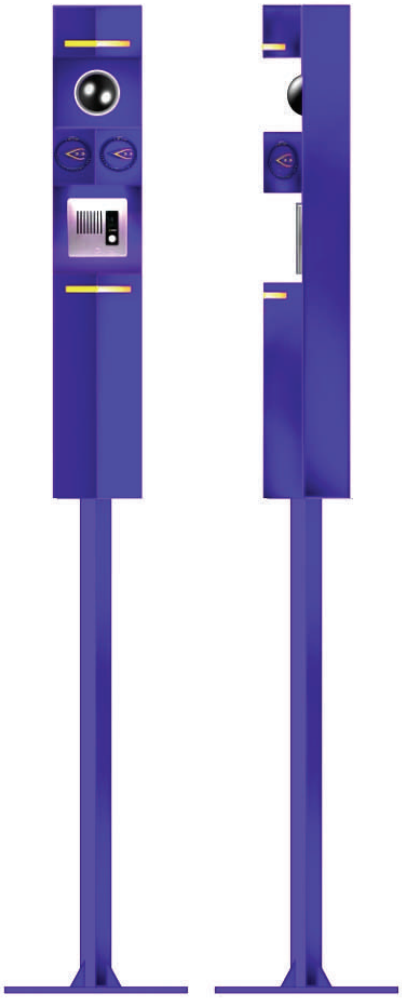
VIDEO / INTERCOM / PROXIMITY ACCESS CONTROL TOWER

DESCRIPTION

The CHASE SECURITY STEEL TOWER has been designed to house cameras, intercoms, card readers, and other electronic devices and protect them against vandalism or accidental damage. It is designed to be used in a variety of public locations including: driveways, parking lots, port authorities, military bases, consulates, apartment complexes, prisons, and government and institutional facilities.

The steel tower provides strength and ease of installation and maintenance of equipment once installed. For over 30 years Chase security products have been manufactured in a variety of sizes, styles and finishes, and sold to OEM accounts and distribution and installed by Government Institutions, Prisons, HUD, Projects, Universities, Hotels, Parks, Schools, Hospitals, and other public locations where both functionality and aesthetics count.

Can be used in a variety of outdoor applications.



FEATURES

- Constructed of quality 14-gauge cold-roll steel.
- Welded at all sides for a reinforced solid construction.
- Finish: red, blue, yellow, white or black coating.
- LED lights in tower face enhance visibility and illuminate installed intercom/keypad devices.
- Dimensions: 70" x 6" x 6".
- Additional models available as full length towers without pedestal base.
- Chase custom designs and builds to your specifications.

*Chase Security Systems, Inc., an **MBE Enterprise**, draws from over 30 years of experience selling to the Fire, Security, Computer, Sound, Food Processing, Forestry, Communications and Telecommunications industries. Many of our signature products are now being produced by other manufacturers but our steel towers are still the product of choice for their strength.*
