DESCRIPTION

The CHASE SECURITY STEEL HOOD has been designed to house intercoms, card readers, cameras, and other access control devices and protect them against vandalism or accidental damage. It is designed to be used in a variety of public locations including: driveways, parking lots, port authorities, military bases, consulates, apartment complexes, prisons, and government and institutional facilities.

The steel hood provides strength and ease of installation and maintenance of equipment once installed. For over 40 years Chase Security products have been manufactured in a variety of sizes, styles and finishes, and sold to OEM accounts and distribution. They are installed by Government Institutions, Prisons, HUD, Projects, Universities, Hotels, Parks, Schools, Hospitals and other public locations where both functionality and aesthetics count.

Can be used in a variety of outdoor applications.

Chase Security Systems, Inc., an MBE Enterprise, draws from over 30 years of experience selling to the Fire, Security, Computer, Sound, Food Processing, Forestry, Communications and Telecommunications industries. Many of our signature products are now being produced by other manufacturers but our steel hoods are still the product of choice for their strength.
