CPA 382
VEHICLE ACCESS PEDESTAL

DESCRIPTION

Our custom pedestal is designed to house and protect a variety of access control devices. This is the ideal all in one solution to accommodate your project's unique needs.

FEATURES

- Constructed of quality 14-gauge cold-roll steel.
- All welded for a solid construction.
- Powdercoat finish; Multiple color options.
- Dimensions: 38" tall. 25° slope.
- Mounted on a 10" x 10" (.312" thick) reinforced steel base.
- Comfortable access heights for vehicle traffic.
- Customization available.

Hoods are Available and Sold Separately

Chase Security Systems, Inc. draws from over 40 years of experience selling to the Fire, Security, Computer, Sound, Food Processing, Communications and Telecommunications Industries.

Due to changes in industry, exact product dimensions and features may differ slightly from above.

CSSPW 428W
SPRINKLER HEAD GUARD

DESCRIPTION

Chase Security Systems, Inc. heat probe/sprinkler guards are designed to house and protect a variety of fire notification appliances commonly used in many applications including but not limited to:

- Correctional
- Educational
- Commercial
- Residential
- Industrial
- Medical
- Hospitality
- Recreational & Athletic locations

FEATURES

- Constructed of quality 9-gauge (.148 in diameter) steel wire.
- Welded at all points for strength.
- Finish: White polyester coating. Alternate color options for volume orders.
- Provided with three wire-formed eyelets for solid installation.
- Dimensions: ID: 4" diameter x 8" deep.
- Easy to install.
- Chase custom designs and builds to your specifications.
- Also works with heat probes (refer to this section of our website for additional information).

Chase Security Systems, Inc. draws from over 40 years of experience selling to the Fire, Security, Computer, Sound, Food Processing, Communications and Telecommunications Industries.

CSGE 10185X
SPEAKER GUARD
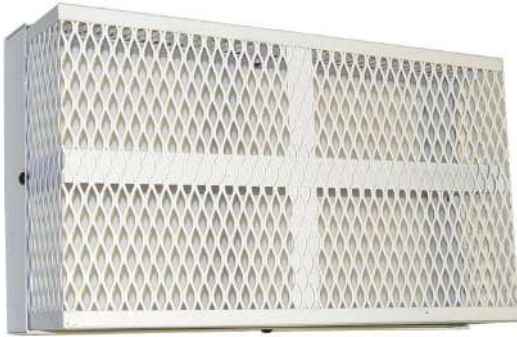

DESCRIPTION

Chase Security Systems, Inc. metal enclosures are designed to protect clocks, bells, speakers, and other devices against vandalism or accidental damage. Our guards are commonly used in many applications including but not limited to:

- Correctional
- Educational
- Commercial
- Residential
- Industrial
- Medical
- Hospitality
- Recreational & Athletic locations

FEATURES

- Constructed of quality 16-gauge expanded steel with a diamond pattern of 1" by 3/8" openings.
- Welded at all sides with reinforcement for a solid unit construction.
- Steel crossbar welded for increased durability.
- Finish: Powdercoat.
- Dimensions: O.D: 18" x 10" x 5" deep.
- **Frame opening clearance: 16" x 8".**
- Easy to install.
- Chase custom designs and builds to your specifications.

Chase Security Systems, Inc. draws from over 40 years of experience selling to the Fire, Security, Computer, Sound, Food Processing, Communications and Telecommunications Industries.

Designing Products that Protect

CSGE 221226
MOVIE PROJECTOR GUARD
Shelf Mount

DESCRIPTION

Our custom projector enclosure series is designed to protect projectors* and installed hardware from damage and tampering while allowing access for tasks such as routine servicing.

Common applications include auditoriums, theaters, gymnasiums and viewing rooms. Our products are widely used in educational, correctional and mental health facilities.

FEATURES

- Constructed of quality 16 gauge expanded cold roll steel with 1" x 3/8" diamond pattern openings.
- Welded at all sides with reinforcement for a solid construction.
- Clear shatter resistant window protects lens without obscuring enclosed projector.
- Finish: Powdercoat (Multiple color options).
- Dimensions I.D: 22" x 12" x 26" deep.
- Unit can be provided with provisions for electrical conduit pipes of any size or orientation.
- Chase custom designs and builds to your specifications.

*Devices not included

Chase Security Systems, Inc. draws from over 40 years of experience selling to the Fire, Security, Computer, Sound, Food Processing, Communications and Telecommunications Industries.

SP 77W
SERVICE PLATE

DESCRIPTION

Chase Security Systems, Inc. service plates have been designed to fit a variety of applications in warehouses, gymnasiums, above ceilings, poles and special areas where a bridge is required for electrical box screws and for wire service.

FEATURES

- Constructed of quality 16 gauge steel.
- Creates a mounting surface where no walls or ceilings are present.
- Finish: White powdercoat.
- Dimensions: 7.5" x 7.5".
- Includes four welded press nuts for 1/4"-20 screws.
- Installs to most standard 4" square electrical boxes.
- Chase custom designs and builds to your specifications.

DESIGNED FOR USE WITH CHASE WIRE GUARDS MODELS:

- PSGW 653W
- SGW 653W
- HSGW 653W
- PSG 653W
