## ANTENNA WIRE CAGE

### DESCRIPTION

Chase Security Systems, Inc. network device guards are designed to house and protect a variety of range expanders and wireless access points from damage caused by accidental impact. The wire grid utilizes a large percentage of open area to allow for optimal signal transfer, while providing a reliably durable layer of protection for the enclosed device.

Our cages are designed for use in environments including, but not limited to:

- Residential
- Medical
- Commercial
- Industrial
- Athletic
- Educational

### FEATURES
