NETWORK RANGE EXPANDER GUARD

*Device not included

DESCRIPTION

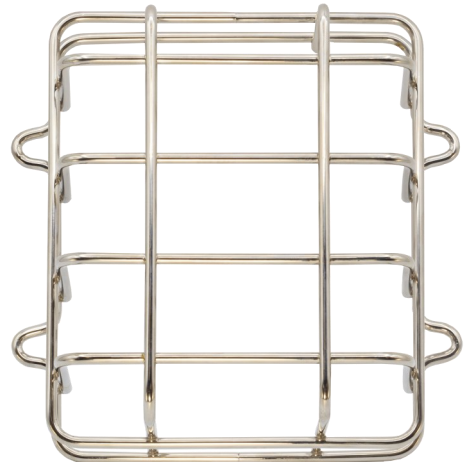

Chase Security Systems, Inc. network device guards are designed to house and protect a variety of range expanders and wireless access points from damage caused by accidental impact. The wire grid utilizes a large percentage of open area to allow for optimal signal transfer, while providing a reliably durable layer of protection for the enclosed device.

Our cages are designed for use in environments including, but not limited to:

- Residential
- Medical
- Commercial
- Industrial
- Athletic
- Educational

FEATURES

- Constructed of quality 7-gauge (.177 in diameter) steel wire.
- Welded at all points for strength.
- Stock finish: Nickel plated.
- Provided with four wire-formed eyelets for a solid installation.
- Dimensions: ID: 6" x 5" x 3" deep.
- Easy to install.
- Compatible with a variety of different devices.
- Chase custom designs and builds to your specifications.

Chase Security Systems, Inc. draws from over 40 years of experience selling to the Fire, Security, Computer, Sound, Food Processing, Communications and Telecommunications Industries.

Due to changes in industry, exact product dimensions and features may differ slightly from above.
